

SENSOLABO[®]

CONTACTLESS NFC

A Better Way to Monitor **Pharma** Products

CONTACTLESS TEMPERATURE DATA LOGGER

Simple, Geolocated and Affordable

With One Movement, from Anywhere in the World, thanks to Sensolabo[®] it is now possible to **Instantly Read, Send, Store Data** and **Being Alerted** by e-mail **Without** any Technical Installation.

Much more than a **Data Logger**, Sensolabo[®] is a **Temperature and Humidity Monitoring Solution** that includes a **Reading App** AND a **Data Management Cloud Platform** (Compliant with 21CFR part 11).

- Near Real-Time Information
- Geolocated at Each Reading
- Compliant by Design: **No Data Manipulation**
- Fully Automated Process : **90% Reduction in Time Spent**
- Cloud SaaS Management Platform **21 CFR part 11**
- Calibration Certificate Integrated
- High Precision Digital Sensor
- 100% IATA Air Fret Compatible
- **European Manufacturing**

Single or Multi Use, + Humidity
Versions from 30 days to 1 year.

No commitment, no installation
fees, no monthly or hidden fees !

Read, Send, Store Data and Being Alerted in One Touch

Digitalize Your Monitoring Process in Seconds...

5 Seconds to Start

Sensolabo® is activated in 5 seconds by pressing the Start button. Sensolabo® can also be set manually to add a **Pharmaceutical Batch Number** or transport information

2 Seconds to Process

Once received or during transit, when approaching an enabled Android reader, temperature data is **Automatically** made available and **Instantly Uploaded** to your secure **Cloud Space** without any effort from the user.

Extra Time Quality Check

The **21 CFR part 11** compliant Cloud Space, accessible from your web browser on a 24/7/365 basis, allows visualization and export of all data (Graphs, PDF, Excel, Geolocation).

...and Strengthen your Compliance.

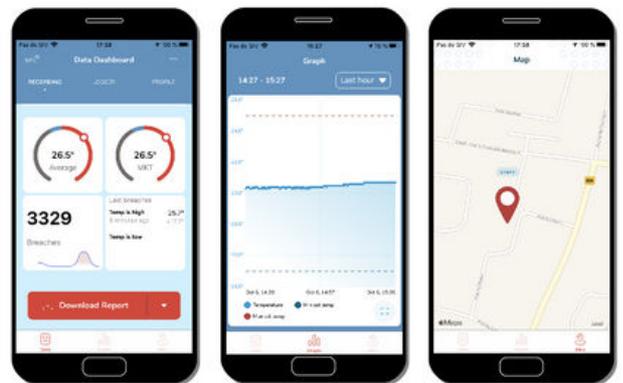

- Specifications**
- Temp Range: -40°C to +60°C (-40°F to +140°F)
 - Measurement Interval: From 10 seconds to 2 hours
 - Memory Capacity: 5,000 measurements
 - Recording Duration: 36 or 100 Days (Single Use) / 1 year (Reusable)
 - Shelf Life : 12 Months
 - Resolution: 0.1°C (0.2°F)
 - Accuracy between 0 and 30°C: ± 0.2°C / ± 0.5°C on the rest of the range
 - Dimensions: 80 x 50 x 2.5 mm
 - Weight: 10g
 - Battery: Button Cell (One per recorder)
 - Protection class : IP67 - Waterproof

What is NFC Technology ?

Well known to be used for contactless payments, NFC is a feature available in more than 2 billions smartphones and turns them into a reading connected terminal wherever it is.

Just tap Sensolabo® with your Iphone* or Android NFC smartphone to get access to temperature data.

*Iphone 7 or Higher

Sensolabo® can also be read by a PC via an NFC/USB interface available in option.

A better way to monitor pharma products.
