A Better Way to Monitor Pharma Products

Simple, Geolocated and Affordable

With One Movement, from Anywhere in the World, thanks to Sensolabo® it is now possible to Instantly Read, Send, Store Data and Being Alerted by e-mail Without any Technical Installation.

Much more than a Data Logger, Sensolabo® is a Temperature and Humidity Monitoring Solution that includes a Reading App AND a Data Management Cloud Platform (Compliant with 21CFR part 11).

- From -40°C to +60°C
- Geolocated at Each Reading
- Secured by Design - "Straight to the Cloud" Technology
- "Over the Air" Centralized SaaS Management Platform
- Calibration Certificate Integrated
- European Manufacturing
- Ultra-Compact & Waterproof
- Recyclable
- Customizable Design...

Single or Multi Use, + Humidity Versions from 30 days to 1 year.

From 15.90€

No commitment, no installation fees, no monthly or hidden fees!
Reduce Time Spend in Operations by 90%...

5 Seconds to Start

One Push

Sensolabo® is activated in 5 seconds by pressing the Start button. Sensolabo® can also be set manually to add a Pharmaceutical Batch Number or transport information.

2 Seconds to Process

One Touch

Once received or during transit, when approaching an enabled Android reader, temperature data is Automatically made available and Instantly Uploaded to your secure Cloud Space without any effort from the user.

Extra Time Quality Check

One Cloud

The 21 CFR part 11 compliant Cloud Space, accessible from your web browser on a 24/7/365 basis, allows visualization and export of all data (Graphs, PDF, CSV, Geolocation).

...and Strengthen your Compliance.

Data Transmission

SSL and HTTPS protocols.
Alerts Automation.

Data Protection

No data manipulation. Individual user access. Secured Servers.

Data Integrity

Audit Trail. Incorruptible records

Complies with IATA requirements. Non-emissive passive technology. Do not require to be switched off during the flights.

What is NFC Technology?

Well known to be used for contactless payments, NFC is a feature in nearly every smartphone and turns them into a reading connected terminal wherever it is. Just tap Sensolabo® with your Android NFC enabled smartphone to get into application. (PC USB interface in option)
