COOLBOXUSTM VACUUM INSULATION PANEL

The Strongest Performances for Temperature Control

PORTABLE INSULATED BOX FOR EXTREME CONDITIONS

10 Times More Efficient Than Traditional Insulation

CoolboxusTM is a portable insulated box with outstanding capabilities. Its **Proven Performances** makes it probably the best solution to maintain the integrity of the cold chain in the **Most Hostile Climatic Conditions**.

Qualified in accordance with **ISTA 7E Standards**, CoolboxusTM can assure the thermal security of health products between -80°C to -60°C up to 144 hours.

Manufactured in a certified ISO 9001:2008 and ISO/TS 16949:2009 environment, CoolboxusTM is an **Ultra-Durable Solution** that may be combined with Phase Change Material (PCM) or Dry Ice.

Light and Compact CoolboxusTM is designed to satisfy the most demanding health professionals.

- -80C to -60C for Over 6 days
- Qualified in Accordance With ISTA 7E Standards*
- Advanced Fiberglass VIP Panels
- 0.0025 W/mk Thermal Conductivity
- Dry Ice Compatible
- Ultra Durable
- Wrapped in Metallic Cloth
- Cloth Outer Top
- Lightweight and High Volume Payload

Available in 4 Different Sizes

7, 15, 21 & 29 Liters

*21 & 29 liters

ISTA 7E Standards

The 7E Profiles are the **New Standard for Thermal Transport Testing**.

The new ISTA-7E tests are not just a combination of thermal profile "Simulations" and procedure protocols.

INTERNATIONAL SAFE TRANSIT ASSOCIATION

The standard includes **Heat and Cold Profiles** developed from data gathered in **Real World Transport**.

Boxes in test chamber

For Daily Use

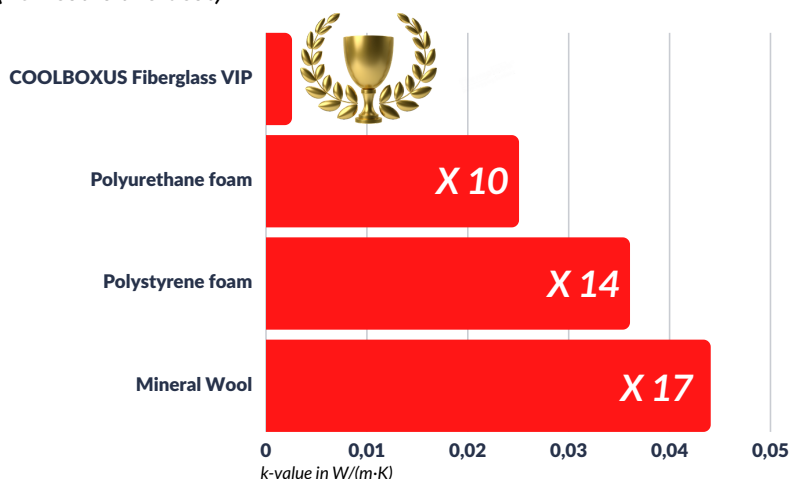

Coolboxus™ has an **Unbeatable Space-Occupancy Capacity Ratio** and can be fold down when not in use.

VIP technology allows an **Ultimate Thermal Protection** of your products while offering an **Ultra Light and Compact** shaped design.

VIP: The Best Insulation Material

(Lowest is the best)

Specifications

	Capacity Liters	Dimensions cm LWH/ in / out	Weight Kg.
Large	29	39x28x28 46x34x34	4.8
Medium	21	28x28x28 34x34x34	3.9
Small	15	28x20x28 34x27x34	3.3
Compact	7	28x16x16 34x23x23	2.3

Designed For International Transports & Last Mile Deliveries
